Law Enforcement Data Service: Scenarios for holding my data

OFFICIAL

# Data Processing: Law Enforcement Purpose

---

Your data may be held on LEDS for number of reasons and purposes. You will often know that your data is being captured onto a database after an encounter with the Police (for law enforcement activities) or with the DVLA (for general driver licence storage) for example.

Data processing responsibilities are established under the **General Data Protection Regulation** and (or) the **Data Protection Act 2018**.

Data processing undertaken by the Police will most likely be for the primary purpose of **law enforcement** as defined in **DPA Part 3**. It can only be performed by a competent authority, as listed in Schedule 7;

*The law enforcement purpose is defined as ‘the prevention, investigation detection or prosecution of criminal offences or the execution of criminal penalties, including the safeguarding against and the prevention of threats to public security*

The Controller of the data is responsible for how that data is being processed. The **purpose** must be established before processing begins and must remain the primary purpose throughout that processing. It is possible for the purpose to change, but there must be an appropriate, proportionate reason for the change of purpose.

It is also possible that LEDS could process the same data for multiple purposes. The key point is that the Controller(s) must ensure that they adhere to the obligations of each specific purpose. For all non law enforcement processing , the DPA Part 2 should be read in conjunction with GDPR.

OFFICIAL

# Data Processing: General Purpose

---

The **Data Protection Act 2018, Part 2** details data processed for a general purpose and should be read in alignment with GDPR. This will apply for the safeguarding of data, once there are no criminal investigations.

The GDPR established **6 purposes** for processing data. The data must meet at least one of these purposes. As with law enforcement, each has a direct impact on the exercise of individual's rights, lawful basis and governance;

- Consent
- Contract
- Legal obligation
- Vital interest
- Public task
- Legitimate interest

**Q: Why's my personal data on LEDS?**

**A: You have been suspected of committing OR planning to commit an offence**

---

LEDS Role	Typical Scenario	Outcome	Aware of initial data capture?
<b>Suspect</b>	There has been a direct allegation(s) made against you	Details of incident recorded (no caution or conviction)	Y & N
<b>Suspect</b>	There has been a direct allegation(s) made against you as a minor - e.g. Sexting – Outcome 21	Informal resolution – Details of incident recorded criminal matter	Y
<b>Outstanding matters</b>	Police Intelligence has been gathered about you	Information gathered but not decision has been reached or was never pursued	N
<b>Suspect</b>	Police Intelligence has been gathered about you	You have been arrested or are about to be arrested	N

OFFICIAL

**Q: Why's my personal data on LEDS?**

**A: You have been arrested for a criminal offence**

---

LEDS Role	Typical Scenario	Outcome	Aware of initial data capture?
<b>Suspect</b>	You have been arrested on suspicion of committing a recordable offence	Charged with an offence	Y
<b>Suspect</b>	You have been arrested on suspicion of committing a recordable offence	Released under police bail, incl. conditional bail [The Police can release you on police bail if there is not enough evidence to charge you or with certain conditions. Pending further information]	Y

# Roles & LEDS

---

**Data entered into LEDS will fall into at least one of the below categories.** It is possible for a person to have multiple roles within a given event or be linked to others due to association. For example, a witness and a suspect as a result of an altercation.

- Suspect
- Wanted person
- Outstanding matter
- Offender
- Controlled person
- Disqualified driver
- Locate as witness
- Vulnerable person
- Missing person
- Firearm Licence holder
- Vehicle driver
